SPACE SAVING STRATEGY

MACHINE ROOM PASSENGER ELEVATOR

Machine room is about the same as the well size. It effectively saves the occupation rate of machine room space. Small machine room design grants the elevator to more easily merge with the building. It greatly reduces the restrictions of the building outline design. It reduces the building space cost.

MACHINE ROOMLESS PASSENGER ELEVATOR

Machine roomless passenger elevator applies the well-developed elevator technology. Under the premise of optimizing overall structural design, it keeps the constantly superior elevator quality. Machine roomless design moves all of the original machine room devices into the well. It fulfills a simplified installation mode of one-well style. It initiates upon an economical and practical vertical transport solution plan for modern building.
